

Convert .rdb to .csv

1. Run "SQLite Database Browser.exe".
2. Open database (Ctrl+O).

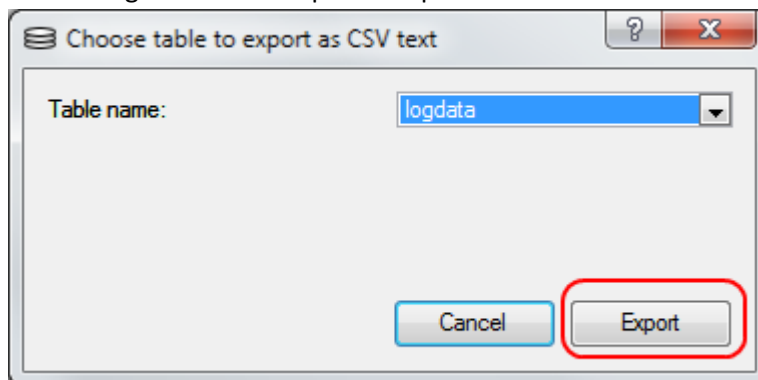

3. Select the .rdb-file that should be converted.

4. Export to .csv (File->Export->Table as CSV file).

5. Choose logdata and then press "Export".

6. Type the filename for the .csv-file (ex. TrendData.csv).
7. Save file.
